**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to an apparatus comprising a first frame, a second frame and a mirror, classified in class 359, subclass 872.
- II. Claims 7-19, drawn to a rear projection display device comprising a screen, a lens, and a mirror, classified in class 353, subclass 37.
- III. Claims 20-33, drawn to a rear projection device comprising a screen and a base including a plurality of vents, classified in class 353, subclass 61.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Group I claims an apparatus comprising a first frame, a second frame, and a mirror moveably mounted in the second frame. This mirror device could be used in any system requiring a moveable mirror and there is no requirement, based on the claim language, to search in the projection art. Although both Group II and Group III are rear projection systems, they have different classifications. Group II has no requirement for the heat source and vents of Group III, and Group III has no requirements for the particular mirror of Group II. Different references would be required for the rejection of all of the claims in Group II and Group III, respectively.

Because these inventions are distinct for the reasons given above and the search required for either Group I or II is not required for Group III, restriction for examination purposes as indicated is proper.

Because these inventions, Group II and Group III, are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melissa J Koval whose telephone number is (571) 272-2121. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen can be reached on (571)272-2258. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
